Cut Line

Please ensure image
or colour bleed exceeds this line
to allow for cutting adjustments

Maximum Bleed

The diagram illustrates the layout for a book cover. It is divided into two main sections: the 'Inside Front Cover' on the left and the 'Inside Back Cover' on the right. A vertical dashed line runs down the center, representing the spine. A horizontal dashed line runs across the top, representing the top edge of the cover. A solid line runs across the bottom, representing the bottom edge of the cover. A vertical solid line runs down the center, representing the fold line. A horizontal solid line runs across the bottom, representing the cut line. A horizontal solid line runs across the top, representing the maximum bleed line. Arrows point from the fold line to the top corners, indicating the cover will be folded. An arrow points from the cut line to the left edge, indicating where to cut. An arrow points from the maximum bleed line to the right edge, indicating the extent of the bleed. Text instructions are provided for each line.
